### Fruit Pizza Crackers

- ❖ Wasa crispbreads – Sourdough and Multi Grain both work great
- ❖ Strawberries, raspberries, blueberries, kiwi
- ❖ Cream Cheese
- ❖ Honey

**Step One:** All you need to do is add some honey into your cream cheese. This makes it easier to spread and adds just the right amount of sweetness.

**Step Two:** Spread some of the cream cheese mixture onto each crispbread and add some finely chopped fruit.

These crackers will become soggy if you try to save them for later, so it is best to eat them when they are fresh! This recipe would be yummy with graham crackers or even ritz crackers too!

If you have never tried Wasa Crispbreads, you really need to check them out. Not only are they fat free and 100% whole grain, but they are the perfect base for anything.
