
Alliance For Children Mini Newsletter

May 2020

So many changes have happened due to the Covid-19 Pandemic. We are adjusting as issues come up that we need to address.

SPRING TRAINING

Our plan is to produce the training and offer it to you as a YouTube video. We are working on the details and we will notify you when our details are complete. The training will star Miss Tawnya Kinder putting her fun training style on YouTube!

GRAB AND GO MEAL PROGRAM

Please contact Paula at (801) 313-1090 for more information on the Grab and Go Meal Program.

DAYCARE CLOSURE OR TIME UPDATES

We understand that things are changing on a daily basis. Please let AFC know of any changes to your daycare closures or times.

If you have any questions or concerns, please call the office. We will do what we can to help or answer your questions.

STAY HEALTHY * STAY STRONG

“Every day we should hear at least one little song, read one good poem, see one exquisite picture, and, if possible, speak a few sensible words.”

Johann Wolfgang von Goethe

The institution is an equal opportunity provider.

Alliance For Children Newsletter

June 2020

“A hero is an ordinary individual who finds the strength to persevere and endure in spite of overwhelming obstacles” *Christopher Reeve*

RELATIVE CARE

If you know of anyone caring for relatives, please contact the office. We can offer more information if they are interested in joining the CACFP program. Let's feed more kids!!

SERVING NON-DAIRY MILK

Non-nutritionally equivalent milk replacements must have a note from a medical authority. If the parent is in the process of getting a Dr. note, the parent can document the disability (foods and/or beverage to be omitted AND foods and/or beverages to be substituted as well as a brief description of major life activity or bodily function affected by the disability). If the provider has a note from the parent during the time the parent is getting a note from medical authority, the child can be claimed for meal reimbursement. The provider can give the parent the “Medical Statement to Request Special Meals, Accommodations, Milk Substitutions” form (we will email you the form) or the parent can get a statement from a medical authority.

MEAL SERVICE OPTIONS

Pre-plated: Must have all required components and minimum serving size on each plate.

Family Style: Family style meal service means that the food is placed on each table for each child to help him/herself. Children may then select the foods they want and the amount of each food they want. Providers must ensure that minimum portions (or more) of each required component for all children are available for the children at the table. During the meal, it is the responsibility of the provider to encourage each child to accept the full required portion for each food component of the meal pattern. For example, if a child does not want a food component, or does not want the full required portion of a meal component, the provider should offer the food component to the child again.
